

Dear Potential Sponsor:

One of the fastest growing sports in our area is girl's fastpitch softball. Hundreds of teams in the metropolitan area compete in age groups from 8 to 19. The Virginia Crushers is comprised of young girls and coaches who are 100% dedicated to learning, teaching, and playing fast-pitch softball at the highest competitive level possible.

The Crushers program was started in 2003 to give girls an opportunity to play fastpitch softball on a more competitive level. These hard working girls spend many hours on the playing field while maintaining high academic standards. They are required to set goals both individually and as a team, then work and play hard to reach them. Their dedication to the sport of fast-pitch softball and schoolwork will ensure they become candidates for college scholarships and more importantly responsible adults in our community.

At this time we are raising funds for the upcoming season. Fall practice and games have already started. Indoor practice for our team will start in January and over the next several months. The Virginia Crushers will be representing Northern Virginia in tournaments throughout the East Coast and the Washington Metropolitan area. After qualifying for the National Tournament, they are then required to travel to tournaments outside the state of Virginia. As you can imagine, this will be a costly endeavor. We respectfully request your financial assistance to help defray these costs.

Our team is "non-profit" and in great need of community and business support. Any amount, large or small, is greatly appreciated. For tax purposes: The Virginia Crushers is a non-profit organization (ID 20-1692097). With your help, our girls will be able to compete with the best teams in the country.

Thank you in advance for your consideration and support of today's young athletes.

Sincerely,
Virginia Crushers
